

EMERGENCY NEEDS REQUEST FORM

It is our hope that each agency will abide by the guidelines set up in the Agreement with Participating Agencies. The purpose of United Way is to provide one single fund raising campaign that will help to meet the financial needs of many agencies. We do, however, understand that there are times when an emergency situation arises that require additional funds that might not have been budgeted for at the time of the United Way Request Hearings. Use this form to notify the United Way office and make aware of any situation arising that may require additional funding.
